

# CSE341 – Programming Languages (Fall 2014)

## Homework #0

**Handed out:** 3:00pm Tuesday September 16, 2014.

**Due:** 3:00pm Tuesday September 30, 2014.

**Hand-in Policy:** Printed versions should be submitted online on Moodle by the handing dateline. No late submissions will be accepted.

**Collaboration Policy:** No collaboration is permitted. Any cheating (copying someone elses work in any form) will result in a grade of -100 for the first offense and -200 for the subsequent ones.

**Grading:** Each homework will be graded on the scale 100. Unless otherwise noted, the questions will be weighed equal.

---

**Problem 1** (100 points): Read the article on the following link titled “5 Ways to Tell Which Programming Languages are Most Popular” and provide a one page summary (at least 500 words) of what you think about programming languages in general and what it means to you.
